## State-of-the-Art level III NICU

### About Surya

Surya Hospital was established in 1985 in Mumbai with a vision to provide patients and their families easy access to the most advanced technology and affordable clinical care.

Surya Hospital, Pune was established with the similar infrastructural facilities to be the largest Neonatal Intensive Care Unit (NICU) with 35 beds & a total of a 110-bed indoor facility providing the best birthing experience to the expecting mothers.

### The Best-in-Class for Women Care

Surya has the world-class, ultramodern birthing facilities to give the finest experience that is warm and comfortable to the expecting mothers. The department of gynaecology and obstetrics offers world-renowned care for women seeking fertility, gynaecological oncology and maternity services with the latest treatments, state-of-the-art operating rooms and private suites.

In addition to general obstetrical and gynaecological care, Surya Hospital has specialised maternal foetal medicine experts who specialize in high-risk pregnancies.

It also offer some of the most advanced urogynaecological services in the city with experts actively involved in research and education for new and innovative women's health treatments.

### Leading Experts in Newborn-Care

Surya Hospital has been at the forefront of neonatal care and has played a leadership role developing neonatology in the country. Surya has a state-of-the-art Level-III NICU, which is the largest Pune region. The hospital is providing a stellar role by serving with completely dedicated neonatal ambulances, also Known as 'NICU on wheels' for free transport of newborns across the city. Being a forerunner in the Neonatal Intensive Care and Paediatric Healthcare, it is India's fastest growing tertiary-care hospital with multi-specialty consultants and four fully-equipped ultramodern operation theatres, where the hospital is always ready to handle high-risk pregnancies with ease. The group takes pride in the fact that they have successfully treated more than 25,000 critical newborns and premature cases.
